**Subject:** formal consultation meeting draft talking points for your review  
**Attachments:** FormalConsultation\_DraftTalkingPoints\_v1.docx

Hi Douglas,

I reviewed the EPA Tribal Consultation Policy before putting these talking points together. That document is the source for the 4 phases under Part II of the talking points.

As for dividing up the talking points between the EPA Sr. Official and the technical person, I think all these talking points can be delivered by the Sr. Official. If there is any need to present technical background info at any point during the discussion, then the technical person can provide that info using handouts. The three tribes we will be meeting with have a pretty good grasp of the scope of the project, because they were very engaged with the NRC. I don't think there is any need to present technical background info at the beginning. See what you think as you review the talking points.

I will put together the background technical info handouts next.

Thanks!

*Valois*
